

Bobcat News

CONSTRUCTION UPDATE

We are now in our 6th month of construction. Most of Bobcat's work will be confined to the project site, but since the construction of our pipelines has started, you will see some activity off the main site. Bobcat is continuing to work on constructing the leaching plant, finalizing the electrical substation and are continuing the drilling operations at Caverns 1 and 2. Here is what you can expect to see and hear during the upcoming month:

- Construction traffic on 190 and through the town of Port Barre.
- Workers (from the rig and project contractors) around the Port Barre/Opelousas Communities using goods and services (hotels, restaurants, gas stations).
- Construction equipment and materials being moved in and set up on the project site.
- Drilling rigs being moved off project site.
- Construction of Bobcat's pipelines.

As we have mentioned before, if you have a question, a comment or concern regarding any of Bobcat's construction activities—call the Bobcat construction hotline at 1-877-904-6262. You will be asked to leave certain information in your phone message so the proper Bobcat team member can answer your question. Calls will be returned within 24 hours. The Bobcat Team appreciates the support and hospitality that you have shown us—We want to be YOUR GOOD NEIGHBOR.

FIRST ANNUAL SUMMER COOKING RECIPE CONTEST

Calling all Cooks!

Bobcat is excited to announce our first annual summer cooking recipe contest. If you have a recipe(s) that is sure to help "BEAT THE HEAT" - then send it in. We have created 2 contest categories: Outside Grilling and Picnic Favorites. The top 2 recipes in each category (as determined by Bobcat's test kitchen) will win prizes and will have their recipes published in our

July Newsletter. Please submit your recipes (with all necessary ingredients and instructions) to Bobcat by e-mail to jcraddock@bobcatstorage.com by June 29th. This contest is open to all cooks of all ages. If you have any questions or need more details contact Jamie (see contact information on this newsletter). GOOD LUCK!!!

BOBCAT UPDATES

December 2006	Start of Construction
February 2007	Bobcat Begins Drilling Cavern 1
April 2007	Bobcat Begins Drilling Cavern 2
May 2007	Start of Pipeline Construction
June 2007	Drilling Rig Moves Off Location
July 2007	Bobcat Begins Leaching Operations

SUMMER READING IS IMPORTANT (AND YOU CAN WIN PRIZES!)

The Bobcat Team know the importance of summer reading for kids — most of us are parents. Looking for summer activities is not always easy—but we are going to provide you with one more alternative. For the months of June, July and August—Bobcat will sponsor a summer reading program for kids that are in grades K-12. A reading log is on our website under Summer Reading. Students are asked to provide a date, title of book and a brief description of the book they read. Read 10 books (or 4 hours) and start winning prizes. If you are the top winner for the summer (read the most books) you will win a trophy and get your picture in our newsletter. The reading contest is open to all students in St. Landry Parish and the surrounding Parishes or for students who have someone working with or associated with the Bobcat Project. All details are on Bobcat’s website www.bobcatstorage.com. Please let all your friends and neighbors know about our contest. Just remember “READERS ARE OUR FUTURE LEADERS”.
